THANK YOU

Thank you for purchasing the 2 Drum Bund Pallet. We hope you will be completely satisfied with this product. This industrial strength product is guaranteed frost-proof and is made from UV stabilised polymer.

IMPORTANT SAFETY INSTRUCTIONS

- Bund pallets must be sited on a flat, level concrete base
- Clearly label individual containers with details of what they contain and any hazard they pose;
- Label storage areas with details of what can be stored in them;
- Fit warning signs, for example appropriate hazardous substances symbols (pictograms), at access points to dedicated stores;
- Store different materials separately so they can't mix if there's a leak (it's easier to deal with a spill of just one material than a mixture); this may be a legal requirement for some substances - see information from the HSE;
- Only keep the minimum working quantity of materials on site;
- Protect storage from extremes in weather whenever possible, for example sunlight, frost;
- Keep storage areas away, or isolated, from on site drainage, surface waters and groundwater and vehicle routes.

SINGLE IBC DETAILS

Height	390mm
Length	1350mm
Width	730mm
Grid	PE
Bund material	Polyethylene
Forklift access	2 sided (Front & Back)
Weight	25kg
